

Customized Plans To Fit Your Needs

To start right away:

Select the package of your choice and send us your customization details, logo, pictures and content documents. Submit your down payment and you are only a few days from having your professional website live on the web.

If your website requires more capabilities than offered by one of our standard packages, please email us with your specific needs and we will contact you as soon as possible to discuss.

E-mail us at
info@swva-biz.net
with your project requirements today!

To keep our prices low, we have a no cash refund policy. We will pro-rate (less setup fees and costs) the difference on your contract, and apply it on another project.

Guidelines on Providing Content

All content should be provided in digital form in a timely manner. Completion date will be approximately 30—90 days, after receipt of all customer provided information.

Text (250 words maximum) must be submitted using an MS Word document (.doc). Limit images to one photo per page. Additional pages & features, over those included with the package deal, will be billed at our current hourly rate. Our hourly rate will also be applicable for all extra design or photo editing work (e.g. product catalogs, photo galleries, photography).

To submit a request for a quote, please provide the total number of pages along with sample documents and any special requirements that you may have.

E-mail us at
info@swva-biz.net
with your project requirements today!

All change requests must be in, both digital form and hard copy.
